

ENORMOUS CHARISMA

BASALT NEON

 **PLANAM**
Fashion for your profession

STRIKINGLY DIFFERENT

Get lost in the grey mass of ordinary workwear?
Not with PLANAM! Our Basalt Neon range is a real
eye-catcher with proverbial charisma – striking in
design, convincing through functionality.

When workwear cuts a good figure on the job, it's convincing on two levels – through performance and look. Basalt Neon combines both in one collection. The performance parameters: Robust rip-stop fabric withstands any strain while ensuring it is comfortable to wear at the same time. Practical features such as generous bellows pockets with flaps provide the necessary storage space for utensils. The wow effect: modern design elements in the form of fluorescent material and sporty contrast stitching provide a dynamic look. The typical basalt look ensures a casual appearance. Conclusion: a strong range in every respect, also available in children's sizes for the little heroes of everyday working life.

EVERYTHING IN ITS PLACE!

Work utensils always need to be at hand. Basalt Neon provides maximum storage space with bellows pockets with flaps.

The optimal solution when you want to turn a lot of storage space into even more storage space: generous bellows pockets. Whether trousers with a waistband or dungarees – we have equipped our models with many of the small space wonders for you. Additional highlight: Flaps to ensure everything is well stored.

Rip-stop fabric
Tear resistant and hard wearing

Decorative seam
For the sporty look

Neon colours
As a visual highlight

Bellows pockets with flaps
For maximum storage space

Quick access
Bellows pocket without zip

An absolute eye-catcher
Decorative seams in contrasting neon colours

Practical thigh pocket
Offers plenty of space for "little treasures"

CLASSICS FOR KIDS

The Basalt Neon Junior collection also has the right clothing for the tradesmen and women of tomorrow.

////////////////////

The little heroes of everyday life play, romp and also like to really get stuck into building projects in the garden. Dirty clothes are pretty much the order of the day. Whether it's waistband trousers, dungarees or softshell jackets – the easy-care Basalt Neon Junior collection withstands any exterior stresses and many washes. In addition, many pockets offer enough storage space for toys and the like.

PERSONALISATION IN NEXT TO NO TIME

Workwear is advertising space for your logo and acts like a business card for your company. Personalisation ensures a recognisable and positive company image. Our finishing service brings your message to a wider audience in a customised, professional and fast manner.

PLANAM Individual specialises in personalising your workwear. From reflective appliqués to transfer prints and embroidery, we offer multiple personalisation options of the highest quality. Whether you need small quantities for handicraft businesses or large runs for industrial companies – our team of experts are on hand to provide you with personal advice and detailed information about the optimal finishing types for our products. This also includes finishing options with methods specifically adapted to the certification requirements of certified protective clothing.

STANDARDS & CERTIFICATION

THE OEKO-TEX® STANDARD 100

The OEKO-TEX® Standard 100 is an independent testing and certification system for raw, intermediate and end products for textiles from all stages of processing. Examples of certifiable articles are raw and dyed/refined yarns, raw and dyed/refined woven and knitted fabrics, ready-made articles (garments of all types, home textiles, bedding, terry towelling, toys made of textiles and many others).

Tests for harmful substances cover:

- + substances banned by law
- + substances regulated by law
- + chemicals that are known to be potentially harmful to health (but are not yet regulated by law)
- + healthcare parameters in their entirety, the requirements go well beyond existing national legislation.

Why OEKO-TEX®?

The OEKO-TEX® Standard 100 was developed in the early 1990s as a response to the need of consumers and the general public for textiles that do not pose a risk to health. Negative headlines such as "Poisons in textiles" were widespread at the time, labelling all chemicals used in the production of textiles as negative and harmful to health.

Yet the demands made of modern textile products cannot be met without using certain chemical substances. Fashionable colours, easy care, long life and many other functional properties are demanded of textiles today and are, to some extent, and depending on their intended use (e.g. for professional and protective clothing), quite indispensable.

UV PROTECTIVE CLOTHING WITH INTEGRATED SUN PROTECTION

The largest organ of the human body is the skin, and it is exposed to great danger in summer. UV rays from the sun can increase the risk of skin cancer. Standard textiles are radiolucent, providing insufficient protection.

PLANAM's UV-protective clothing gives guaranteed certified safety. Awarded UV protection certificates "PROTECT 80" and "PROTECT 40", this range guarantees maximum prevention. Just like for sunscreens, the figure indicates the protection factor for spending longer in the sun safely. Our PLANAM models allow the wearer to remain in the sun 80 or 40 times longer than those without protection. With their integrated sun protection factor, the finished garments provide the skin with optimum protection. Those with sensitive skin can stay in the sun longer without having to cover themselves in sunscreen. It is important to know the individual skin type in order to determine the individual's protection time (length of possible exposure to the sun without risk of skin damage). The UV protection factor specified (e.g. Protect 80) gives the factor by which the individual's protection time can be extended just by wearing these textiles.
